

## DISCOUNTED SHOW SHELTERS

This shelter was previously set up as part of an exhibit for the ASLA and NRPA trade shows. It sustained minor wear in the process of assembling and disassembling. All parts have been checked for damage to the finish, and were cleaned and touched up with matching paint.

### CURVED ARBOR - AR6X20

This 6' x 20' Cantilevered Curved Arbor has four (4) 4" x 10" rectangular columns with decorative bases and bands, and curved knee braces below the horizontal supports. The 2" x 6" slats are pitched at 4:12, and space 12" on center at the inside connection. Individual steel slats connect directly to the columns on both sides to form flat benches.
